Dear Colleague Letter

Plyler v. Doe (1982)

- School districts *cannot ask a student or family about their immigration status* as it is unnecessary to establish residency in a school district.
- School districts *may not bar a student from enrolling* if they lack a birth certificate
- Providing social security numbers is voluntary

Dear Colleague Letter (cont'd)

- Providing a social security number is voluntary.
- School districts may not require certain documents – such as a parents' state issued drivers license – if such a requirement would prevent a student from enrolling because of his or her parent's immigration status.
- Homeless children do not have to provide proof of residency and school districts must immediately enroll the child even if they do not have the documents usually required.

McKinney Vento Act

Homeless - any person who lacks a fixed, regular, and adequate nighttime residence.

Unaccompanied youth - youth who are not in the physical custody of a parent or guardian.

- Not all UAC will be considered "unaccompanied youth" by the public schools and the McKinney Vento Act
- Some may be considered "homeless"; for example, if they are in "doubled-up" housing with relative sponsors. Must be reviewed on a case-by-case basis.

McKinney Vento Act (cont'd)

Homeless children and youth have a right to:

- Immediate enrollment, even if they don't have all of their paperwork. The student can be enrolled in school while these records are being obtained.
- Access to all of the school's programs and services on the same basis as all other students, including special education, school nutrition programs, extracurricular activities, etc.
- If a student needs immunizations or medical records, a homeless liaison should assist the student with obtaining them. The student can be enrolled in the meantime.
